PROJECT PROFILE

PROJECT PROFILE

❖ ABSTRACT

Case Tracker is a web application by which a lawyer can manage all of its work by using a single system. Using this system a lawyer can manage staff, clients and their case details including FIR and other evidence copies and they can also manage case hearing date and its notification regarding case hearing. Using this system lawyer can easily check the details of any case from any place and at any time.

This web Application will be more useful for the lawyer who is having lot of clients and it is being very difficult for him to manage all the work related to clients, cases and other documentary work related to cases.

Using this single system, a lawyer would be able to manage all the required staff easily including client's details, their upcoming case hearing date, documents related to cases like evidences and his/her staff even we could say lawyer would be able to easily access the case details from anywhere at any time and save his timing.

CASE TRACKER

(LAWYER)

❖ EXISTING SYSTEM

- In the physical mode there is a Lot of Paper work and Complexity.
- It is also Time-consuming process.
- There is a need of *Warehouse* for storage [e.g. case files]
- Notification is not available.
- Less of security.
- Risk of getting stolen or damage on Information.

❖ PROPOSED SYSTEM

- This system will save process timing and get faster result.
- Remove the paper work.
- Get Notification (hearing date and all)
- Mange cases smoothly.
- Search process can faster.
- Reduce manual work.
- Information can be retrieve from anywhere.
